

Benfield

ARTHUR J. GALLAGHER & CO.

2017 SYNDICATED RESEARCH OVERVIEW

Benfield Research is responsible for syndicated research services. We have a team of seasoned consultants focused on understanding the ever-evolving employer market opportunities for healthcare stakeholders, particularly biopharmaceutical manufacturers.

- » The 2017 Employer Market Intelligence (EMI) Service includes print and online access to reports, live presentations and consultant inquiry and data query privileges.
- » Click each report title for more information or contact [Sarah Daley](#) at 314-656-2384.

2017 EMI SERVICE

Employer & Coalition Profiles Databases *(March)*

Key insights into individual jumbo employer and leading coalition health benefit design, vendors and areas of interest in a user-friendly Excel format.

Employer Market Trends Report *(May)*

Evaluation of health benefit topics, including key dynamics & employers' role in pharmacy benefits management.

Employer Market Relationships Report *(October)*

Analysis of employer and coalition partnerships with healthcare stakeholders (manufacturers, PBMs, health plans, benefits advisors) and collaboration opportunities.

Oncology Management & Benefit Design *(August)*

Examination of employers' current and future priorities and concerns related to managing cancer, and actionable insights into related employer decision-making.

2017 PRICING

Core EMI Service:
3 Reports: \$69,000

Expanded EMI Service:
4 Reports: \$80,000

If select fewer than three reports, multi-report discounts will not apply.

Pricing is \$25,000 per report.

13 Years of Employer Market Intelligence Focused on the Marketplace Influence of:

- » Jumbo employers (5,000+ employees)
- » Non-jumbo employers (2,000-4,999 employees)
- » Leading employer health coalitions
- » Employer advisors (PBMs, health plans, benefits advisors)

We help our manufacturer clients understand employer market environmental factors, priorities and needs. This includes the influence purchasers have on access to medications, devices and other product services and the role they play in driving innovative healthcare solutions.

2017 Employer & Coalition Profiles Databases

2017 Oncology Management & Benefit Design

(August)

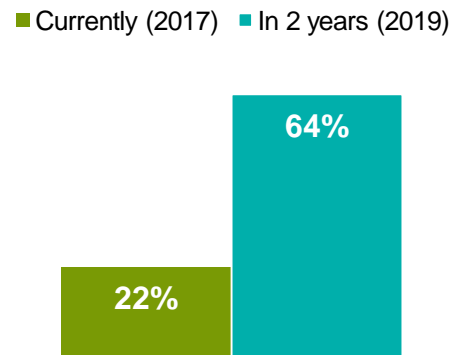

Benfield-Gallagher Research's *2017 Oncology Management & Benefit Design Report* is designed to identify the role and opportunities for biopharma to engage in defining sustainable cancer management solutions, and ultimately make their case for ongoing product access and appropriate reimbursement.

This two-part research began with in-depth, future-focused interviews with 28 leading edge jumbo employers and 7 additional healthcare stakeholders to provide an understanding of employer-purchaser approaches, priorities and concerns related to managing cancer. Then, we conducted a survey of 80 jumbo employers to test and validate qualitative research findings and to gain further understanding of how employers are managing the complexities of oncology care and their future approaches to cancer benefit design.

Report Topics Include:

- Longitudinal Outlook of Employer Approaches to Cancer Care & Biologics
- Key Management Challenges & Cost Drivers
- Oncology Benefit Design and Coverage Restrictions or Enhancements
- Employer Perspectives & Plans around Site of Care, Genomic Testing and Value Frameworks
- Employer Support Offerings
- Strategies to Achieve High Value Care
 1. Directing Employees to Better Providers
 2. Influencing Employees' Treatment Plans
 3. Aligning Payments to Providers with Better Care
 4. Improving End-of-Life Care

Employer Focus on Cancer

Cancer is in the center of our radar, and we are taking significant steps to manage it
