

Special Report on Employer Worksite Health Clinics

Benfield-Gallagher Research's 2018 *Special Report on Employer Worksite Health Clinics* examines worksite-based and near-site health clinics as a tool for employers to effectively manage population health. This primary research will focus on employer objectives and challenges in implementing and running health clinics, medical and pharmacy services offered, outcomes to date, and opportunities for manufacturer engagement.

Report Topics:

- Utilization & Expansion of Worksite and Near-Site Clinics
- Current and Planned Medical & Pharmacy Services Offered
- Population Health Management Integration
- Market Segmentation & Business Models
- Management Strategies, including Partnerships with Community Health Facilities and Third Party Vendors to Conduct Clinic Operations
- Outcomes and Return on Investment
- Support, Information & Communication Gaps
- Best-in-Class Practices & Case Study Examples
- Implications & Opportunities for Pharmaceutical Manufacturers

Services Offered at Worksite-Based Health Clinics

n=101 Employers
